Wayon I.T Solutions provide you a latest technology smart home that allows homeowners to control appliances, thermostats, lights, and other devices remotely using a smart phone or tablet through an internet connection. Smart homes can be set up through wireless or hardwired systems. Smart home technology provides homeowners with convenience and cost savings. Security risks and bugs continue to plague makers and users of smart home technology. Products that monitor & control every aspect of your smart home. And much more. Air conditioning control, Lighting control, Security system, Sound system, Curtain control & etc.

ADMCC CERTIFIED

Wayon I.T Solutions is MCC Certified to provides the up-to-date products, cost effective for your security solutions. CCTV Camera is a fundamental tool that keeps your property secure, along with maintaining the well-fare of your Business, Family in home, Company, Employees and operations.

It promotes the safety of the space, reduces crime rates, as well as deters potential smash-and-grabbers from damaging your property.

If you have more than one store or site you want to monitor, you can Install a remote CCTV System at each location. And you don't need special phone lines or high-speed Internet connections. The remote CCTV system uses Standard Telephone lines and Advanced video compression techniques to transmit up to 15 frames per second of full motion colour video and audio.

Access control in the fields of physical security and information security, access control (AC) is the selective restriction of access to a place or other resource while access management describes the process.

The act of accessing may mean consuming, entering, or using. Permission to access a resource is called authorization.

Professional Audio Visual and IT solutions. Project design, implementation and support. Extensive experience in multiple state in UAE. Video walls, interactive panels, projectors.

Sensormatic anti-theft protection easily applied in-store at the source. Our labels utilize Sensormatic technology for reliable performance and unmatched anti-theft protection. Sensormatic labels are available in AM or RF technology to discreetly secure items of all shapes and sizes and provide quick, consistent deactivation at the point-of-sale for fewer false alarms at the store exit. When labels are applied at the source of manufacturing, items arrive floor-ready with consistent Sensormatic label placement to help expedite receiving and selling floor fulfillment.

Wayon I.T Solutions ensure that installation are as per international standard by having highly experience Engineers and Technical on board.

Our qualified and experienced Engineer & Technicians are happy to meet you at your premises to take you through the options and recommend the service agreement that is right for your business.

DESIGNING

Wayon I.T Solutions prepare the designs as per your needs and convenience and ensuring that we are aligned with the Government requirements.

Design, development, application, implementation, support and management of computer and non-computer based technologies for the express purpose of communicating product design intent and constructability.

MAINTENANCE

We take of our precious clients even after the installation. We make sure that it is close to no issue in our services, solution and products that we provided. We ensure that you worry less about these things and gets to effectively and productively focus on your business.

Our maintenance involves functional checks, servicing, repairing or replacing of necessary devices, equipment, machinery, building Infras-structure, and supporting utilities in industrial, business, and residential installations.
